

Online course “Tools for Post-Conflict Urban Recovery”

Delft University of Technology, May-June 2023

Certificate

Petro Panovyyk

Has followed the online course organised by the Delft University of Technology and partners consisting of 8 online sessions between May and June 2023, with experts in issues connected to post-conflict urban recovery and has delivered a final assignment. This is equivalent to 26 hours of study.

The course included issues of spatial justice, governance, housing design and management, circular economy, land policy and community development.
